

Upton Marina Holiday Village

Project Update 17th April 2003

The outline application was considered by the Southern Area Planning Committee on Wednesday the 16th of April. We are very pleased to announce that at that meeting the Committee voted to approve the scheme.

The scheme will therefore be proceeding as soon as possible. We plan to commence extraction works by the end of this summer.

Further details of the Planning Officers report to the committee are available on the MHDC website: www.malvern hills.gov.uk

The fruit trees, which were situated on the hillside overlooking the proposed new marina basin, were apparently removed during WWII. The scheme now proposes to replace these with local fruit tree species to create an 'orchard' environment around the hillside lodges. Any information or historical data on the removed trees would be gratefully received. Please contact Steve Arber (see below).

Further details of the scheme can be viewed by arrangement with the Marina Office. Please call in or telephone 01684 593111, or e-mail steve@waltonmarine.co.uk
