

Good news from Upton Community Care!

After our very difficult three winter months with unavoidable staff absences, by way of a change this time, I am able to say a 'THANK YOU' instead of on previous occasions, a PLEASE.

As a result of earlier requests for help, we have now welcomed three new volunteers to our office team – Jenny, Roger and Val who will be valuable additions to us and have brought our numbers to a workable complement, which should ensure enough of us to cover the forthcoming holiday season when colleagues take well-earned breaks.

We continue to develop our computer skills with much help and support and endless patience from our IT guru and, as many of you will already be aware, we are also taking the necessary steps to fulfil Government requirements for data protection.

It's all go... but we don't lose sight of our principle commitment which is to meet the needs of our clients in Upton and the surrounding areas as professionally and efficiently as at all possible.

With all good wishes

Margaret Overton
